

# ALPHATRON PEDESTAL

## Product Information

**Product name:** Alpatron Pedestal

**SKU:** ALP-PEDESTAL

**EAN-13:** 8718591671791

### Description

This versatile lightweight camera platform with adjustable air-system provides accurate and effortless camera positioning for small studios and outside broadcasting setups.

The pedestal is fitted standard with a 100mm bowl mount and features a load bearing capacity of up to 30 kg (66.9 lbs.)

The balance can be easily adjusted by simply pumping in more air and the pedestal makes low camera positioning possible.

Use the optional Alpatron Pedestal extensions to obtain higher camera positioning when working in a standing position and depending on the operator's height. These extension units are available in 150mm and 300mm and can also be combined to create maximum height.

The dolly has collapsible box tubing arms and the legs of the dolly can be folded while the pedestal stays mounted. To make sure your cables do not get entangled in the swivel wheels, optional cable movers are available to provide ultra-smooth rolling action.

**Vertical reach:** Stroke 335mm

**Normal set-up:** 790mm - 1145mm

**+ 150mm:** 940mm - 1295mm

**+ 300mm:** 1090mm - 1445mm

**+ 450mm:** 1240mm - 1595mm

(both extensions combined)
